Statement for
House Committee on
Planning, Energy, and Environmental Protection
Public Hearing - February 11, 1988

HB 2481, HB 2589, and HB 2590 would appropriate funds for feasibility studies for the incineration of hazardous wastes; the establishment of a hazardous waste treatment and storage facility; and the creation of a landfill for hazardous wastes. These are companion bills to SB 2377, SB 2378, and SB 2379 on which the Environmental Center presented testimony at a hearing before the Senate Committee on Planning and Environment. Our previous statement remains applicable to HB 2481, HB 2589, and HB 2590.
